Ph.D. Winter School

An aerial photograph of a city street corner. The central focus is a tall, modern skyscraper with a curved glass facade that reflects the surrounding urban environment. The building has a distinctive white, curved architectural element at its top. To the left of the skyscraper, there are several smaller, older buildings, including one with a red sign that says "12D". To the right, there are more modern, multi-story apartment buildings. The streets are filled with cars, and there are green trees and parks interspersed among the buildings. The overall scene depicts a dense urban environment with a mix of old and new architecture.
